Palmer P04

\$1,039
Lengths: 179, 189
Dimensions: 132-95-124; 132-98-124
303.330.0228, palmerusa.com

This new wide twin punches well above its weight thanks to a sweet soft-flexing wood/metal laminate construction and Palmer's unique shape and geometry. Marketing lingo aside, this boils down to low-rise tip and tail with a subtle rocker. The P04 would be a great ski without the trick geometry, but the mini-rocker makes it easier and more forgiving than any ski that's capable of similar performance.
